

FOCUS ON YOUR GOAL

WE ARE COMMITTED TO PROVIDE
THE HIGHEST QUALITY PROTECTION
TO ALL WHITE ROOM PRODUCTION
OPERATORS WORLDWIDE.

product range allows the limitation of airborne contamination from workers to maintain cleanliness levels that comply with cleanroom regulatory standards while providing them with the highest levels of protection, clarity, and vision at all times.

SINGLE-USE STERILE GOGGLES

Sterilized by gamma irradiation, the production and packaging are carried out under cleanroom class 7 conditions. The sterilization process complies with ISO 11137 to ensure a SAL value of 10⁻⁶.

DISCOVER

SINGLE-USE NON-STERILE GOGGLES

Disposable non-sterile goggles that can be treated by the customer by gamma or beta irradiation or by ethylene oxide sterilization.

DISCOVER

MULTI-USE AUTOCLAVABLE GOGGLES

Autoclavable multi-use goggles, resistant to high temperature and still fully functional after several autoclaving cycles. Goggles' designs fit over prescription glasses, ensuring improved eye protection and vision.

DISCOVER

PLATINUM

THE ULTIMATE PROTECTION AGAINST FOG & SCRATCH

IN ORDER TO DO THEIR JOB WITH EFFICIENCY AND PEACE OF MIND, CLEANROOM OPERATORS NEED TO BE ABLE TO SEE EXACTLY WHAT THEY'RE DOING WHILE KEEPING THEIR EYES AND THE ENVIRONMENT PERFECTLY PROTECTED. MAKING SURE FOG AND

PLAYS AN IMPORTANT ROLE IN ENABLING
THAT.

MAXIMUM PROTECTION & PERFECT VISION

GO HAND IN HAND

A PROTECTIVE BARRIER BETWEEN THE WORKER & THE PRODUCT

There's nothing quite like the chemical industry. The world's third largest industrial sector employs more than 10 million people and generates an incredibly broad range of products that impact every element of our lives. From industry to clothing, from food to healing people, manufactured chemicals have become intrinsic to our society.
