

TECHNICAL SHEET
LADY D LIKE S3L SR FO ESD
30912

Closed heel area. Antistatic properties. Energy absorption in the heel area.
Sole resistance to perforation, slipping, oils and hydrocarbons.

TECHNICAL DETAILS

COLOUR: 193 Ocean

SIZES: 36 – 42

UPPER: Hydro tumbled suede leather

LINING: Naturalbreath®

SOLE: A sole that combines craftsmanship and technology, this was the inspiring principle in the design of METEOR. The result is uncompromising lightness and a structure capable through the special DRS (Dike Resilient System) shock-absorbing inserts to return energy with every step, compact semitransparent Longlife® PU. The innovative tread with symmetrical elements and large contact surfaces, provides unrivalled slip resistance, ensuring uncompromising stability and comfort. The coloured, hand-painted inserts are matched with the coloured bands on the uppers and strongly recall the handcrafted linings that characterise every DIKE product.

MIDSOLE: Longlife® PU foam

TOECAP: Aluforce® in cast aluminium, ultra light and high resistance.

ANTIPERFORATION INSOLE: HighSafe-Tex® high-density with an innovative material and sewn to the upper guarantees the highest standard of protection. Resistant and flexible.

FOOTBED: Removable open-cell (breathable) EVA RELOAD

REGULATIONS: EN ISO 20345:2022 S3L SR FO

NFC system inserted from production 2024
