

TECHNICAL SHEET
TROUSERS PARTNER DENIM
91233

SEASONALITY: year round

COMPOSITION: Knit Denim fabric, stone washed and bleach treatment, stretch. Special Knit fabric, obtained by knitting machines, has the advantage of being extremely resistant on the outside and soft on the inside.

DCS® (Dike Comfort Stretch): the garment is produced with a special yarn construction treatment that guarantees freedom of movement and high comfort.

The "DIKE COTTON" we have chosen to make our garments is a living fibre that breathes, adapts and reacts to external factors, just like skin, and just like skin it has a high degree of breathability that increases the thermal interchange between body and environment, guaranteeing adequate protection from both heat and cold.

WEIGHT: 380 gr.

REGULATIONS: UNI EN ISO 13688 2013

MADE IN ITALY
