## Photochromic Safety Glasses

Art nr: 1001643

Previous art. nr: ARG104

Safety glasses (EN397) with our most advanced lens featuring smart technology that automatically changes lens color based on prevailing UV light/sun conditions. Clear lens for indoor or cloudy environments, and dark lenses for sunny work environments. The slim temples ensure minimal noise leakage when used with ear protection. Wide panoramic coverage with a comfortable and flexible nose bridge, and angled temples designed for helmet adjustment.
