Features

- Featuring Unigloves NitreGuard Technology
- Featuring Unigloves NitreGrip Technology
- 13 gauge seamless nylon liner with HPPE, encapsulated glass fibre and steel core
- Cut resistant level F
- Dual nitrile coating
- Sandy nitrile palm coating
- Excellent abrasion and tear properties
- Elasticated knitted wrist
- Food approved

Benefits

- Unigloves NitreGuard Technology is awarded to gloves achieving a high-performance in the straight blade cut test
- Unigloves NitreGrip Technology is a new, advanced surface treatment that provides an assured grip when working in dry, wet or oily conditions. The technology reduces the force needed to grip, reducing hand fatigue
- Light weight seamless, breathable, nylon liner with HPPE, encapsulated glass fibre and steel provides the maximum level of cut protection
- Protects to the maximum EN ISO cut level F (≥30 N), ideal for use in areas with a high level of cut hazards
- The flexible dual nitrile coating consists of a fully coated, flat nitrile base layer providing liquid resistance to the wearer and and full 360° hand protection
- The sandy nitrile palm coating is resistant to oils and grease acting as a physical barrier. In addition, the sandy nitrile gives exceptional grip in dry, wet and oily environments
- The comfortable sandy nitrile palm coating offers maximum abrasion and tear protection whilst maintaining flexibility and dexterity to the wearer
- Elasticated knitted wrist ensures a secure fit and keeps hands free of dust ingress
- Suitable for use in food areas, except with acidic foods
